

Garcettism© derives from Judge Allan Goodman's noting that Eric Garcetti's 2012 Update to the Hollywood Community Plan was based on:

(1) Wishful Thinking and

(2) Fatally Flawed Data.

Because Zwartz Talk has found over the years that Myths and Lies are Garcetti's *modus operandi*, Zwartz Talk has coined the phrase **Garcettism**©. Garcettism depends on the unlawful voting pact which rules the L.A. City Council. Under its vote trading agreement, the L.A. City Council unanimously approves all items over 99% of the time.
